

Trading foreign exchange (Forex), shares, contracts for difference (CFDs), and other leveraged financial instruments carries a high level of risk that may not be suitable for all investors. Leverage can work both for and against you. Before deciding to use an Expert Advisor (“EA”) provided by Valden Systems, you should carefully consider your investment objectives, level of experience, and risk tolerance.

## **1. No Guarantee of Performance**

Past performance, whether shown in backtests, forward tests, or live accounts, is not necessarily indicative of future results. No representation is being made that any account will or is likely to achieve profits or losses similar to those presented shown in historical testing or previous results.

## **2. Possibility of Loss**

You remain fully responsible for all the risks associated with trading financial instruments. It is possible that you may lose part or all of your initial investment. Do not invest money you cannot afford to lose.

## **3. Technical and market risks**

Performance of the EA depends on numerous external factors outside of the Valden System’s control, including, but not limited to:

- Broker execution speed, spreads, swaps, and commissions.
- Internet connection quality, VPS/server stability, and platform errors.
- Market conditions, liquidity changes, slippage, and news events.
- Prop-firm restrictions or account limitations

## **4. User responsibility**

By purchasing and using this EA, you accept full responsibility for all trading activity executed on your account. You are solely responsible for:

- Choosing appropriate risk parameters and lot sizes
- Monitoring open positions and account equity
- Ensuring proper installation, configuration, and maintenance of the EA
- Maintaining stable internet and platform access

## **5. Licensing and Use**

This EA is licensed for use only by the original purchaser. Resale, sharing, or distribution is strictly prohibited. Licenses are monitored, and unauthorised sharing or resale can be detected and verified through technical or transactional means. Each license may be tied to specific trading accounts and is non-transferable without prior approval.

## **6. Limitation of Liability**

Valden Systems and its owner shall not be liable for any direct, indirect, or consequential damages, including but not limited to financial losses, lost profits, system failures, data loss, or other issues that may arise from the use or misuse of the product. Use of any EA, software, or strategy provided by Valden Systems is entirely at the user's own risk
